#### SCENIC DESIGNER

#### ABOUT ME

My dad always said, "It doesn't matter what you do for a living, just do it well and love it." I took that to mean to do everything I can to be the best at what you do and find real joy in it. It doesn't matter how difficult something appears to be, what matters is what you did to overcome that challenge and what the outcome was. I try to embody that in everything I do, both professionally and in my personal life. I am a creatively passionate individual and all I want is to use that creativity to make the lives of others a little bit easier
